

Masks and Personal Protective Equipment

Experiment 8 - Practical Notes

Name: _____ Roll no.: _____ Date: _____

Aim

To select and demonstrate PPE for a stated teaching situation.

Principle

PPE selection follows exposure risk, fit and the facility's infection-prevention procedure.

Key Points

- Identify gloves, apron/gown, medical mask, respirator and eye protection.
- Gloves do not replace hand hygiene.
- The exact putting-on and removal sequence follows the facility's selected PPE combination.

Activity Procedure

1. Assess task

State the anticipated contact or splash risk in the fictional activity.

2. Select

Choose appropriate training PPE and explain the reason.

3. Demonstrate

Use the institution's checklist to put on and remove the selected items without contaminating clean surfaces.

4. Record

Note fit, removal errors, disposal and hand hygiene.

Record and Observations

Field	Activity record
Scenario / exposure risk	_____
Selected PPE	_____
Fit / technique	_____
Removal / disposal check	_____

Result

Complete the record using your activity, then state the findings, the action required and the reason for that action.

Precautions

- Use teaching models and respect privacy.
- Do not practise invasive procedures during these role plays.

Viva Questions and Answers

1. Why use plain language?

It helps the learner understand and act on the advice.

2. Why use teach-back?

It checks understanding through the learner's explanation or demonstration.

3. What should be recorded?

Observed performance, agreed actions and any referral concern.
